97103-0625	1	0	JEFF ANDERS	FROM HABIT TO CREATIVITY		No
There is an inevitable movement in each Soul's journey to live more fully in human form. To accomplish this we must transform the way we express ourselves through our personalities and move from unconscious, habitual reactions to conscious, creative actions. A clear understanding is presented of how to actively use the combined forces of Heart, Mind, and Will for this purpose.						
97103-0337	1	0	JEFF ANDERS	PEOPLE AS MEDICINES		No
We each have a unique nature and vibration that effects and is effected by everyone else. In much the same way that a medicine can help or hurt, the effects of our interactions can vary quite dramatically. To understand this, we must learn to pay attention to the dosages, timing, frequency, and combinations of those that we are with.

ISR23-009	1	2	VERENA BACHMANN	LIVING IN THE GLOBAL VILLAGE: HOW CULTURAL PATTERNS SHAPE THE EXPRESSION OF OUR CHART		No
Every culture and society has beliefs and assumptions about good/bad and right/wrong behaviors that shape the energies of our chart and their expression - enhance, repress, deny, distort, etc. Explore how different planetary constellations can work according to the underlying belief and how to find the true potential behind them.						
ISR20-121	3	0	VERENA BACHMANN	LOVE AND SEXUALITY IN MODERN TIMES		No
In these days we are asked to take a new look at our relationship patterns and our beliefs on sexuality. Many old biases and concepts do not work in our modern times for they keep us from being who we really are in our relationships. Living our true individuality AND relating to others is the challenge. We look at the language of the chart to explore how to bring our individual potential into love and sexuality. Through this we can discover exciting ways of relating by including the flow of energies in the Law of Cycles and the Law of Potentials.						
ISR20-058	1	1	VERENA BACHMANN	PERSONAL DEVELOPMENT THROUGH THE MIRROR OF RELATIONSHIP PATTERNS		No
As we grow, we draw different types of people into our lives. Through synastry and composites, we can see which patterns are activated at different times and which steps we are taking in our personal growth. This lecture explores how difficult patterns can teach us to integrate unconscious and/or un-lived parts of our chart and also, how we can add specific qualities to our personality through integrating needed qualities that we see or experience in others.						
ISR20-030	1	0	VERENA BACHMANN	TRANSFORMING OLD PATTERNS		No
By understanding the deeper meaning of the energies and needs involved in difficult constellations, we are able to transform old patterns and scripts into more creative expressions. In this lecture we explore possible experiences and behavioral patterns from childhood as well as pre-birth and collective imprints connected to important aspects of the transpersonal planets. We then look at ways to develop a new understanding of their challenges and find possibilities to express their potential in daily life.						
97103-0411	1	2	VERENA BACHMANN	FROM DEPENDENCY TO MASTERSHIP		No
We are all in a constant process of development and within the wide range of possibilities we can differentiate three clear levels: Being a victim of the world and our destiny: expressing our autonomy; and consciously working with transpersonal forces. Each of these stages has typical experiences, possibilities and dangers and also needs a different astrological approach.

ISR25-T7S6	1	0	LYNN BELL	CAGED GLORY: SATURN IN LEO		Yes
As Saturn enters Leo, the focus shifts from issues of security to the realm of courage. The courage to be, the courage to love, to stand up against pressure, no matter what the consequences. This sign/planet combination can be harsh and rough or absolutely impeccable. Our confidence is tested, our sense of self is honed and tightened How to be strong without going too far? We will look at collective and individual issues that emerge as Saturn makes its passage through this sign.						
ISR25-T6S2	1	0	LYNN BELL	UPSIDE, DOWNSIDE, INSIDE OUT: LIVING IN A MUTABLE WORLD		Yes
Mutable signs move us backwards and forwards; they work in roundabout, often confusing ways, embodying a whole series of splits and contradictions within ourselves. With Uranus now moving through Pisces (and Pluto still in Sagittarius), a deeper understanding of these dilemmas can be a key to living through these confusing times, and accessing their more fertile possibilities.						
ISR23-063	1	1	LYNN BELL	URANUS TRINES SATURN IN THE WATERY REALM		No
As if the slightly weird sizzle of Uranus in Pisces weren't already enough, Saturn is also getting wet in Cancer. How can we understand Saturn's traditional fall in this sign, with a simultaneous feel-good trine to Uranus? This early transit can build momentum for a period that promises to be slightly overwhelming; What to watch for and expect.						
ISR23-018	1	0	LYNN BELL	THE AMAZING ELECTRIC UNDERWATER ADVENTURE		No
What kinds of images emerge out of the collective unconscious as Uranus enters Pisces? The bounds of logic and reason that prevailed with Uranus in the straight-edged signs of Capricorn and Aquarius are replaced by leaps of imaginative perception, waves of electrified intuition, and other reality-bending possibilities. In this light an integrated approach to the study of the stars can lead to renewal of the path of wisdom. Integrating Helio and Geo views, Tropical and Sidereal zodiacs, etc.						
ISR25-T2S9	1	9	ANI BETTATI	NEPTUNE, URANUS, SATURN		Yes
As human beings, we have difficulty integrating the energy of the outer planets. When Pluto, Uranus, and Neptune are strong in the Natal Chart, the psyche reacts in a defensive way. These planets are always going to bring changes that threaten the vain longing for stability and security. Pluto energy suggests death and transformation. Uranus will liberate us from attachment and fixed structures. Neptune dissolves boundaries that separate us from the whole cosmos. Therefore, in spite of a certain amount of integration, we react with fear of losing control, due to chart functions manifesting in a distorted way.						
ISR25-T7S5	1	17	ANI BETTATI	THE CYCLES OF SATURN		Yes
As Saturn is the spinal chord of our life, it is one of the most important planets to be observed in a chart. Its cycle takes 29 years and the path through the different houses enables us to forecast experiences that could take place in different areas of our lives and therefore integrate higher level of its energy. Comparing charts, we can observe various possibilities of the manifestation of this precise energy that enables us to get into contact with structure, self-support and therefore freedom.

ISR23-097	1	8	GREG BOGART, PH. D.	ASTROLOGY AND MEDITATION: THE FEARLESS CONTEMPLATION OF CHANGE		No
The most powerful astrological technique is a quiet, meditative mind. We can approach astrology as a form of active meditation, contemplating whatever is arising with expectancy, receptivity, and conscious use of will to shape what unfolds. Case studies and experiential work with birthcharts of audience members illustrates these principles.						
ISR23-040	1	5	GREG BOGART, PH. D.	BASIC PRINCIPLES OF VOCATIONAL ASTROLOGY		No
One of the astrologer's essential tasks is to help clients find the most appropriate occupation and define their vocation, their life's central work. ISR20-027	1	0	GREG BOGART, PH. D.	SYMBOL AMPLIFICATION IN ASTROLOGICAL COUNSELING		No
Chart interpretation is the art of amplifying planetary symbols to explore their many possible meanings, just as one amplifies dream imagery. This process fosters a client's spontaneous self-understanding and active participation in a shared discovery of meaning. Astrology becomes interpretive and dialogical, as well as oracular and prognostic.

ISR25-T10S5	1	0	ZDENEK BOHUSLAV, PH.D.	OMENS AND PRIMARY DIRECTIONS		Yes
Omens and Primary Directions: Applications to the Personal Chart and the World View. Both time and distance tools have not only the same goal - finding future quality of the time for bigger units, nations, city building, or specific person - but also the same root. Earth and her first movement (its own rotation) is a most natural astrolabe for finding future quality of the time, unifying as a celestial machine capable of today usage. Are these nto omens stimulating us to look for roots of astrology more in the depth of the time? Does the third movement of the earth (axis precession) notify us about our history and future?						
ISR25-PSC3	3	0	CHRISTIAN BORUP	SPECIAL PEOPLE HAVE SPECIAL CHARTS		Yes
We are taught that each birth chart is unique and different, but "some charts are more different than others." How well can a person with rare planetary positions be understood by his/her peers? This lecture presents new research into the rarity of certain aspects and configurations. It demonstrates how these warrant a special slant on the normal standard interpretation. Special people have special charts and deserve special consultations. How uncommon and exceptional is your birth chart?						
ISR25-T8S7	1	0	CHRISTIAN BORUP	ASTROLOGY FOR THE TRILLIONS - SUN SIGN ASTROLOGY		Yes
Popular Sun Sign astrology is where most people first meet astrology. Sun Signs makes astrology visible for the millions. But is it "real" astrology? And what are the responsibilities of a Sun Sign astrologer? What are the techniques used? What should you charge? Meeting the popular demands of the media and still respecting the interpretational limitations of Sun Sign astrology is a difficult balancing act and raises the BIG question: Should professional astrologers be doing Sun Signs at all?						
ISR25-T5S3	1	0	CHRISTIAN BORUP	FIVE IS A CROWD: THE 5 PERSONAL PLANETS ALONE, IN PARTNERSHIPS & IN GROUPS		Yes
The existentialist planets (Sun, Moon, Mercury, Venus and Mars) not only describe the personal outlook on life, but also how we expect/demand other people to react in love and relationships. The intrinsic needs of the chart to be understood and seen by other people is intimately linked to the experiences we end up having when relating to other people in any social context. This lecture combines astrology and the worldview of the Danish philosopher Soeren Kierkegaard.

ISR23-033	1	0	CHRISTIAN BORUP	YOUR BIRTH MYTH: A NEW KEY TO THE OLD CHART		No
The Birth Myth is the story you were told about your birth as a child. For many years Christian has collected these "welcome the world"-stories from his clients and compared them to the birth chart and the real life situation of the client. Knowing how to find the Birth Myth in the chart gives vital and surprising information about the hidden agenda ruling a person's outlook on life as a grownup. This lecture presents new insights and teaches the practical interpretation of the Birth Myth.						
96-3811	1	0	CHRISTIAN BORUP	TYCHO BRAHE: THE GREAT DANISH ASTROLOGER/ASTRONOMER		No
Tycho Brahe served as court astrologer to the Danish King Frederick the 2nd for 20 years -- before falling from grace. An astrological expose of a great astrologer who lived in a time when the worldview was changing, much as it is today. In the history books, Brahe is known for his exact astronomical observations, which led his student, Johannes Kepler, to discover the Kepler Laws of planetary movement. Brahe's deep involvement in astrology as the royal astrologer to the King, however, is often forgotten, as are his predictions, which led to his fall.						
96-1112	1	0	CHRISTIAN BORUP	YOUR BIRTH CHART TELLS YOUR BIRTH MYTH		No
This lecture explains how to combine Horary and Humanistic Astrology in a psychological and practical client-oriented interpretation of the birth chart. Together, the exploration of your first-life-crisis--Birth--and the story you have been told about your birth-situation explain your unconscious reactions during stress and crisis, i.e. the habits you are not able to break.						
96-1312	1	0	CHRISTIAN BORUP	THE HEINRICH KUNDIG METHOD OF RECTIFICATION		No
According to the rules of rectification laid down by the Swiss astrologer Heinrich Kundig (1909-89) in his book 'Prognosis', (1955), a birth can only take place when certain planetary conditions exist at the time of birth. This lecture describes how these 'cosmic sections' are found, and how to use the main events in a person's life to choose a valid cosmic section, i.e. the exact rectified birthtime. This system is used extensively in Scandinavia, but is relatively unknown elsewhere.

Humans come in groups, whether it is a family group, a committee, or a group of work colleagues. We live in groups. We function in groups. ISR20-034	1	2	NICHOLAS CAMPION	TECHNIQUES, PRACTICES AND BELIEFS OF BABYLONIAN ASTROLOGY		Yes
Babylonian astrology contained the earliest form of some of the basic techniques of modern astrology, such as dignities and aspects, but also contained other ways of working which were based on ancient ways of seeing the world. What lessons can we draw from the original form of our art?						
96-3911	1	0	NICHOLAS CAMPION	RESEARCHING ASTROLOGY'S PAST		Yes
Students in the history of astrology face a minefield. The information presented in the published reference books is often heavily biased by what historians know as 'Whiggishness', a narrow belief in progress and the superiority of the west. This makes it very difficult to deal with questions such as 'Did western astrology begin in Babylon or in Egypt?', 'Did the Greeks practice Babylonian astrology?', 'What happened to astrology in the 17th century?', and 'Was Jung an astrologer?' These are vital questions which affect modern astrologers when they attach themselves to a particular tradition. They are also the questions we have to be aware of before attempting research. Nick provides the conceptual tools we need to tackle the question of astrology's past.						
96-2711	1	0	NICHOLAS CAMPION	MAKING MUNDANE FORECASTS: AN EXPERIMENTAL LOOK AT THE NEXT 20 YEARS		Yes
Mundane forecasting is often couched in terms which assume astrology is infallible. This is a trait it shares with most other forecasting methods. The truth is that astrology's symbolic language requires us to move from vague impressions to specific forecast in faltering steps. Using the Uranus-Pluto cycle and other long-term patterns, we try and create a picture of the world up to 2016 -- and perhaps beyond.						
96-1212	1	1	NICHOLAS CAMPION	NATIONAL HOROSCOPES: RESEARCHING MUNDANE DATA		Yes
Does it matter if we have accurate data? It does if we want to demonstrate objective links between political events and observed celestial patterns. Yet much mundane data is inaccurate and we have no choice but to work with it. How do we assess if data is accurate, what do we do if we have no accurate data, and is there such a thing as a birth chart for a country? Chart examples are used to clarify some of the issues which must be considered prior to computer research.						
ISR25-T7S8	1	0	NICK CAMPION	PROPHECY, PREDICTION AND OUTER PLANET CYCLES		Yes

ISR25-T1S8	1	0	MATT CARNICELLI	STOCK TRADING FOR THE NON-FINANCIAL ASTROLOGER		Yes
The Incorporation and First Trade moments for companies and their stock are astrologically significant - and allow a technically astute astrologer to profit using some of the very same techniques that they already employ with clients. This lecture will demonstrate the use of transits and progressions in anticipating the likely price movement of any stock. It assumes little to no experience with Financial Astrology. Good quality recording - however price is reduced to \$5.00 because side 2 of the master tape is blank.						
ISR23-094	1	0	MATT CARNICELLI	GEORGE W. BUSH, JR. AND THE UNITED STATES OF AMERICA		No
A critical examination of the charts of George Bush, Jr. and the USA, and what it says about our future. This talk is both informative and entertaining, as you will see both in a light you never saw before.

ISR20-078	1	1	MATT CARNICELLI	THE ASTROLOGER AS HERO		No

ISR25-T12S8	1	0	GARY CHRISTEN	THE ASTROLOGY OF SYMMETRY		Yes
Symmetry, the basis astrology from ancient times to the present was well expressed by the Greeks and modernized by great European astrologers like Alfred Witte. Various schools of thought have sprung up in the 20th century utilizing this grand theme such as Uranian Astrology (Hamburg School), Cosmobiological Astrology and many others. Offering different points of view, these schools are really more alike than different. Symmetrical Astrology subsumes these modern ways of looking at astrology into a single body of thought that is both enlightening and revolutionary. From seasoned practitioner to beginning student, your methods will be enriched by this talk.						
ISR25-T10S1	1	0	GARY CHRISTEN	NEW VIEWS, RAVINGS UPDATED		Yes
During the late eighties and mid-nineties Gary held forth with "Ravings From a Lunatic Mind", a lecture series designed to stimulate some sort of strange right and left brained thought processes. He succeeded so well that he no longer needed to lecture on the subject and thus was cured. Unfortunately nothing remains the same for too long and that terrible desire to inflict others with the consequences of his thoughts is upon us once again. Gary will guide the willing participants through his take on the nature of reality and the destiny that awaits us all.

ISR23-072	1	0	BRIAN CLARK	THE DREAM AND THE HOROSCOPE		No
Because the imagery of the horoscope is so evocative and imaginative clients often remember a dream or dream images while you (the astrologer) are amplifying either the natal or transiting images of their horoscope. Over 25 years of astrological counseling I have heard many dreams in the context of the astrological consultation. This lecture will explore common dream images and how they often synchronize with transiting energies or natal configurations. We also explore the dream clients describe the night before the appointment!						
ISR23-019	1	0	BRIAN CLARK	WHAT TO DO UNTIL THE TRANSIT IS OVER		No

In this lecture we re-examine the transits of Chiron and the outer planets: what is being demanded of us, as well as the most effective way to handle the change. We explore ways to enter into the dynamic of the change to consciously cooperate with the process.

ISR23-079	1	3	ILIA DICHEV, PH.D	LUNAR CYCLE EFFECTS IN STOCK RETURNS		No
Abstract from related research paper: This study finds strong lunar cycle effects in stock returns. Specifically, returns in the 15 days around new moon dates are about double the returns in the 15 days around full moon dates. This pattern of returns is pervasive; we find it for all major U.S. stock indexes over the last 100 years and for nearly all major stock indexes of 24 other countries over the last 30 years. In contrast, we find no reliable or economically important evidence of lunar cycle effects in return volatility and volume of trading. Taken as a whole, this evidence is consistent with popular beliefs that lunar cycles affect human behavior. More material on this subject by Dichev is included in tape: ISR23-056 (See below).

ISR20-008	1	2	MONICA DIMINO	CHARTING CHANGE: WHEN, HOW...DO WE REALLY WANT IT?		Yes
Lives are not transformed because we as astrologers want change for our clients. We must learn to look for signs of readiness in charts and then introduce alternatives. What are these signs? This class explores these questions and suggests ways of handling these critical times in our clients lives.

94-550	1	6	MONICA DIMINO	THE CONSULTATION CHART: CLARIFYING ISSUES		Yes
Set up for the time of the scheduled appointment, this chart illustrates the themes of importance for the client at the time of the consultation. It's an amazing tool for all working astrologers.						
ISR20-045	1	1	ZIPPORAH DOBYNS	THE ZODIAC ALPHABET: NATAL CHART SYNTHESIS		No
The personality system of astrology conceptualizes twelve basic drives or desires which are symbolized by planets, zodiacal signs, horoscope houses, the nodes of all the planets, the dwads of the signs which put a whole zodiac in each sign, etc. Once we understand the twelve psychological principles, astrology is logical. Each chart has all of the principles, but each has its own unique emphasis.						
ISR20-083	1	1	ZIPPORAH DOBYNS	ACCIDENT RESEARCH		No
The Ph.D. dissertation of Sara Klein Ridgley found extraordinary significance in a study of over 1,000 work related accidents. The transiting Sun on the date of the accident was significantly often conjunct, square, or opposite the natal Sun. However, when we replicated the study with over 2400 subjects in Sweeden, we got different results. Psychological principles are expressed in different ways in different cultures!

From the ancient world to modern phychics, prophecies are proliferating about the millenium. What can astrology tell us? What kind of astrology was practiced by the Mayas, Aztecs and Incas? Should we take it seriously?

96-3809	1	1	ZIPPORAH DOBYNS	TESTING RELEVANT ASTEROIDS		Yes
Asteroids are minor (small) planets discovered and named by astronomers. Some of them have been available to astrologers for over 20 years, and when we include them in horoscopes, their names provide their meaning. Astrologers can test them by putting them in charts in which they would be relevant. Examples are given.

Is Vedic Astrology nothing more than fortune telling? Are you afraid to consult a Vedic Astrologer because you may hear your life is fated and out of your hands? If you believe the above myths, this lecture is for you. The truth of the matter is that Vedic Astrology has always been a tool for knowledge and growth like any other system used today. ISR25-T9S9	1	0	RONNIE GALE DREYER	MAGICAL TWO-PLANET COMBINATIONS: CONJUNCTIONS & COMBUSTION		Yes
Two planets in the same sign/house in a Vedic Chart form a magical relationship that often sets the tone for the entire chart. We will go through each planet as it conjoints the Sun, defining how the two planets merge, often very different than their Western counterpart. We will pay special attention to combust planets (within 8 degrees of the Sun), and how planetary energies change, as they move closer to the Sun where they are literally burnt and obliterated.						
ISR25-T9S5	1	0	RONNIE GALE DREYER	POWER OF THE NODES: RAHU & KETU FOR HEALTH & WEALTH		Yes
We'll examine the role of Rahu (North Node) and Ketu (South Node) as indicators of health (strong and weak) and wealth (or lack thereof). Special attention paid to planets that conjoin natal Rahu and Ketu, and how they are weakened or strengthened health wise and financially, ultimately transformed by the power of the Nodes. Eclipses, Nodal Dasas, and Transits are used to time acquisition and loss of wealth, onset and cure of mental and physical health issues.						
ISR25-T10S8	1	0	ADRIAN ROSS DUNCAN	AMERICA, AMERICA		Yes
Loved and hated, and often by the same people, America is a country whose influence pervades every other country in the world. What lies in store for America? How has 9/11 shaped its consciousness, what military developments await, and what surprises will there be in the current presidency and 2008 election? Get an (old) European view of the country that massages your consciousness from cradle to grave.						
ISR25-T7S2	1	0	ADRIAN ROSS DUNCAN	THREE-WAY COMBINATIONS OF OUTER PLANET ASPECTS		Yes
Understanding the combinations of outer planets with the five personal planets is an essential element in mapping long-term trends - both in society and in your personal life. Each planetary combination has a unique manifestation. We will be looking at precise behavior patterns associated with combinations like Mercury to Pluto/Saturn etc. What needs do each of these combinations represent, what are the positive and negative manifestations of them, and how can they be dealt with therapeutically?						
ISR23-087	1	1	ADRIAN ROSS DUNCAN	STRANGE FEAT - URANUS IN PISCES		No
Part of Large Gathering, also includes 15-20 minute presentations by: Terumi Kondo, Elisabeth Teissier, Ph.D. and Anita Noyes-Smith. See Group Session ISR23-087 for Details.						
ISR23-096	1	0	ADRIAN ROSS DUNCAN	GODS IN RECEPTION		No
Uranus and Neptune visit each other's territory, but isn't it a lonely party for us humans? Looking at modern personal trends, such as the single lifestyle, scientific developments, such as cloning and current affairs, how can we get the most out of this brave new world? How will these changes affect our personal horoscopes, and the event and consultation charts we will be casting in the coming period.						
ISR23-054	1	4	ADRIAN ROSS DUNCAN	THE BORDERLAND		No
There comes a time in every planet's life when it must enter new territory and change sign. Each transition over each sign cusp shows a very specific energy change. Learn what this can mean in personal and political life, with transits, progressions and horary.						
96-2402	1	0	ADRIAN ROSS DUNCAN	WORLD OF WISDOM, WOW		No
The World of Wisdom Interpretation Program is extraordinarily user-friendly -- specially designed to work under Windows and introduce ordinary people to astrology. It is completely interactive, very fast, mouse-operated, and writes profound and elegant personal reports.						
96-2510	1	0	SUITBERT ERTEL	THE MARS EFFECT STRIKES BACK: SKEPTIC COMMUNITY IN DISTRESS		No
Results of the speaker's scrutiny at analyzing three attempts by organized skeptics to disprove the Gauquelin claim of a Mars effect with sports champions (by Belgian, American, and French groups) just published with Kenneth Irving 'The Tenacious Mars Effect', is summarized. The skeptics used a number of dubious means to suppress indications of astropsychological correlations.						
96-1309	1	17	SUITBERT ERTEL	RESEARCH INTO THE GAUQUELIN EFFECT IN THE POST-GAUQUELIN ERA: STAGNATION OR		No
The last decade of Michel Gauquelin's research was characterized by a certain degree of stagnation. He had to defend his results on Planetary Effects in Professions against skeptical attacks, his Heredity Results dwindled (Gauquelin), and the Character Trait correlation disappeared (Ertel). But new approaches have yielded encouraging prospects: G. Dean is going to propose an unexpected explanation. Ertel has obtained an unexpected correlation with gender, pre-birth Jupiter effects seem to exist, more sensitive indicators of G-effects have been developed.

ISR25-T10S6	1	0	ASTRID FALLON	THE HIDDEN MEANING OF THE DECLINATION ZODIAC		Yes
The astrology charts we use are always drawn in two dimensions. And these two reveal a third dimension called declination. The presentation includes many graphic illustrations, which give meaning to the declination cycle, and how to understand its variations. The Moon's declination cycle, the Jupiter-Saturn declination cycle and Pluto's weird travels are part of the menu.						
ISR25-T10S2	1	0	ASTRID FALLON	THE 2006 GRAND PARALLEL: MUNDANE		Yes

97103-0612	1	0	DENNIS FLAHERTY	KARMA AND RIGHT UNDERSTANDING		No
In India, Astrology is considered the "eye of the Veda" for its ability to gaze penetratingly into the karma of each soul. Karmas can be discerned and timed with the help of astrology, and with the cultivation of right understanding we can develop the wisdom to discern between what we can change and what we must accept.						
97103-0342	1	1	DENNIS FLAHERTY	EMBRACING THE DRAGON: THE NODES OF THE MOON		No
This intensive presents original research on the ancient astrological harbingers of karma; the dragon's head and the dragon's tail; the nodes of the Moon. ISR25-T6S8	1	2	STEVEN FORREST	MOTHER MOON		Yes
An in-depth look at a person's optimal style of self-nurture, as shown by the natal moon. The focus here is upon what the moon reveals regarding the maintenance of that elusive state of well being which we call "happiness". Moon-consciousness is deeply connected to our experience of being "mothered" when we were young, and whatever joys and sorrows existed there for us are profoundly entrenched in our unconscious, reflective attitudes toward prioritizing our own pleasure, renewal, and felicity.						
ISR25-T5S1	1	1	STEVEN FORREST	LINKING CHARTS - LINKING INTERASPECTS IN ACTION		Yes
My Sun may square your Venus-- but then your Venus squares my Sun! In the astrology of human intimacy, these "interaspectual" processes are always a two-way street. Understanding them depends on being able to move fluidly between the two points of view, and on grasping what each person "sends" and "receives" in the relationship. Steven and Jodie Forrest, in their new book "SKYMATES: Love, Sex and Evolutionary Astrology," have developed a rigorous and precise system for analyzing and presenting this core synastry technique. Join Steven for a practical, in-depth presentation of its application in the counseling context.						
ISR25-PRC4	4	1	STEVEN FORREST	REACHING THE CLIENT		Yes
A psychotherapist typically builds a relationship naturally and gradually through conversations with a client. Not so the poor astrologer, who needs to go from "pleased to meet you" to profoundly serious - and often psychologically scary - material in the first fifteen minutes! How can we make our way into a trusting relationship with our clients quickly enough to fit the unique realities of astrological counseling? The map to establishing trust with the first-time client actually lies in the birth chart. In this presentation, Steven introduces a simple, chart-specific, and effective method for navigating the emotional and interpersonal dimensions of the astrological counseling session. Instead of the usual emphasis on theoretical, abstract understanding, we will focus on how to reach the astrological "end-user", concentrating on the ways that astrological counsel is fundamentally distinct from conventional psychotherapy.						
ISR23-030	1	1	STEVEN FORREST	UNIVERSAL SEXTILE: PLUTO AND NEPTUNE		No
If you were born after the beginning of World War II or if you plan to incarnate in the next three decades, these two mighty outer planets are triggering and stimulating each other in your chart. Their sextile reflects the psychology of this era more definitively than television and fast food combined. But what does the fish know of the sea?

ISR25-PSC5	4	1	JOHN FRAWLEY	AN INTRODUCTION TO MEDICAL ASTROLOGY		Yes
John discusses, with examples, the three main approaches to medical astrology: (1) Analysis of weaknesses and propensities as shown in the natal chart; (2) The use of horary for diagnosis and prognosis of specific ailments; and (3) The decumbiture chart and the chart of 16 houses: another approach to the treatment of specific ailments. He will also outline the traditional medical model, with emphasis on the inescapably holistic approach of astrological medicine, give an overview of methods of treatment, and consider that notable astrologer physician, Nicholas Culpeper.

Demonstrating traditional methods of natal judgment, John explores the colorful life of Master Astrologer William Lilly through his birth chart.						
ISR25-T4S2	1	0	JOHN FRAWLEY	THE NATURE OF THE BEAST		Yes
If we are to describe a human being from the birth chart, it is vital that we understand what a human being is. Words like 'soul' and 'spirit' drop easily from the lips; but what do they really mean, and where do we find them in the natal chart?						
ISR23-100	1	0	JOHN FRAWLEY	LUNAR LATITUDE IN LOVE, POLITICS, AND PREDICTION		Yes
Our astrology concentrates on movements across the sky. John's new work explores the importance of the latitudinal motion of the Moon: Its intense significance in synastry; its meaning in political charts; and its use as a predictive tool.						
ISR23-027	1	0	JOHN FRAWLEY	THE PILOT OF THE SOUL		Yes
Spiritual Direction in an Age of Uncertainty. The ancient texts give guidelines for finding our individual spiritual direction. How relevant are these in a world where all values are open to question? What doorways will the mutual reception between Uranus and Neptune open for humankind?

96-2506/3810	2	0	FRANCOISE GAUGUELIN	THE INEXHAUSTIBLE TIMED GAUQUELIN DATA BASES, PARTS 1 & 2		No
<p>France being the first country that organized precise records of each new birth on its territory, its archives offer now their users more than two centuries of timed birth records. The 'Code Napoleon' made official answers to each request of name, birthdate, and birthtime mandatory for a better identification of its inhabitants long before social security numbers had become the legal method for it. The Gauquelins took advantage of these research facilities since the early 1950's which allowed them to systematically expand their data collection. From 1980 on, Neil Michelsen decided that this wealth of unusually precise data deserved to be computerized to make it available to researchers worldwide.</p>

ISR25-T4S10	1	0	DEMETRA GEORGE	HELLENISTIC TIME LORD TECHNIQUES		Yes
<p>Hellenistic astrology had a number of predictive methods that were never transmitted to Medieval and Modern astrology. Planetary periods and ascensional times of the signs are two simple but powerful timing techniques by which to determine a set of dates when the significations of an individual planet or a planetary configuration are likely to become active. For example, Jackie Kennedy Onassis' Mars-Saturn square was "turned on" in the year when her husband was assassinated.</p>

ISR25-T2S1	1	0	ROY GILLETT	UNTIE THE TRAUMA - LIBERATE THE FUTURE		Yes
Unraveling the technicalities of the birth chart, its progressions and transits; identifies and releases what seem like harrowing and inescapable knots and blocks. This helps clients transform anxieties and obsessions about themselves into opportunities for the future. A "hands on" session that will start with an incisively illustrated introduction, and then consider the charts provided by some of those present.						
ISR23-116	2	1	ROY GILLETT	ASTROLOGY, KARMA, BUDDHISM AND HAPPINESS		No
The astrological chart is a map of birth karma. Its progressions and transits show karmic opportunities to heal the past and find happiness. Tibetan Buddhism is not a religious belief system. Rather it offers psychological methods to find happiness by cleansing our minds. When combined with astrology, the two together form an eminent personal and social therapy for the twenty-first century. This practical day explains the links between the birth chart, karma and the rebirth process, using examples from a contrasting range of people and situations. Having seen that happiness comes from kind choices in life, we try to help course members use astrology charts to find it. Discussion, explanation and short, simple meditations are used.						
ISR23-075	1	1	ROY GILLETT	HAVE THEY DONE WELL?		No
Do harmonious combinations of astro energy indicate easy worldly success and stressful combinations suggest difficulties? If so, only by taking account of the astrological background can we measure real achievement. We assess some famous people and events.						
ISR23-020	1	2	ROY GILLETT	ROCKY ROAD TO THE FOURTH DIMENSION		No
By selflessly mastering the astrological challenges, we "knock on the door" of four-dimensional consciousness. We study Uranus and Neptune from the degenerate 1920s/40s, through today's false Aquarian dawn to a potentially redeeming mutual reception. Is consciousness advancing, or falling by the wayside?						
ISR20-120	3	2	ROY GILLETT	THE CLEANSING POWER OF ASTROLOGY		No
<b>Part 1 - The Astrology of History and Cultural Exchange.</b> A study of the Great Year and outer planetary transits to show how understanding the astro cycles give a deeper, culture free and more reliable view of history. After an overview of the longer spans of time, we start from Neptune/Pluto conjunction and then focus on the main strands of the history of the 20th century, showing how these reveal the unraveling of the social and ethical realities of five hundred years of western colonization and a preparation for the 21st century. <b>Part 2 - Now and Next.</b> In-depth study of the effects of the build up from the Saturn/Jupiter opposition 1989/91, Grand Cross of 1999 and Taurus and Cancer stellia of 2000. We then take stock of social progress in the months since then, until the time of the workshop, look at the vital year 2001, ahead to 2013 and maybe beyond. The lifestyles, ethical and religious implications of the new energy are then discussed. Throughout this session the charts of significant "people of the time" are considered and astro based methods of judging their achievements outlined.						
ISR20-099	1	2	ROY GILLETT	POLITICIANS AND VALUES IN THE 21 <sup>ST</sup> CENTURY		No
As at the time of the 15th century renaissance, the 21st century is the seeding point of a dimensional raising of consciousness - this time the mastery of the fourth dimension. Roy considers the Great Year Cycle, the outer planetary transits and individual horoscopes to show astrology's vital role in our understanding of 21st century society; its people, politicians and values - including a British astrologer's perspective of the Presidential Election.						
ISR20-047	1	0	ROY GILLETT	WHEN AND HOW TO SAY "YES" OR "NO"		No
Very often the client seeks answers, while the counseling astrologer prefers to provide basic information, from which the client can find his or her own answers. Using detailed illustrations from individual charts, Roy shows how judging the timing of astro events reveals a natural flow that gloriously satisfies both client and counselor.

ISR25-PSC1	3	20	ROB HAND	AN INTRODUCTION TO MEDIEVAL MUNDANE ASTROLOGICAL TECHNIQUES		Yes
This workshop includes an introduction to the method and rationale of the Great Conjunctions, as well as methods for analyzing solar ingress charts and other related types of charts such as eclipses, lunations, etc. The methods used are derived from the works of Masha Allah, Abu Mashar, Bonatti and others. Such techniques have been used to forecast political, economic events as well as changes in weather.						
ISR25-T4S8	1	16	ROB HAND	INTRODUCTION TO THE CLASSICAL METHOD OF SOLAR REVOLUTIONS		Yes
The medieval method of solar revolutions, a.k.a. solar returns, is much more comprehensive than its modern equivalent. The method is thoroughly embedded in traditional natal chart delineation and integrated with other predictive techniques. Much of the ambiguity of modern solar return methods is therefore avoided. The use of the complete medieval method of revolutions should restore the technique to the status that it once had of being one of the principal predictive techniques of astrology. Basic Knowledge of Astrology Required.						
ISR25-T4S1	1	4	ROB HAND	ASTROLOGY & WESTERN MAGIC		Yes
Through most of the 20th century most astrologers tended to stress the separation of Astrology and Magic. Yet this has not always been the case. In the medieval and early modern period there was a kind of Astrology that was strongly linked to Magic at the same time that there was an Astrology that was in terms of its day considered "scientific." This lecture will discuss the two kinds of astrology from an historical point of view, their differences and similarities, and what portions of each may be applicable to 21st century uses. Basic knowledge of astrology required.						
ISR20-118	3	3	ROBERT HAND	TRADITIONAL WESTERN NATAL CHART ANALYSIS		No
Over the past several years many techniques have been reintroduced into modern Western astrology that were once central to good astrological technique. These include Almutens, Hylegs, Reception, Triplicity Rulers, Parts and many other techniques. The problem has been how to integrate these into a coherent approach to the natal chart. This workshop deals with that issue presenting these and other techniques in a practical context, demonstrating exactly how these methods are being used at the present time to gain a depth of insight that has been impossible with the more restricted methods of modern astrology. The participants will have hands-on experience with the charts of famous people and of some of the participants themselves.						
ISR20-064	1	2	ROBERT HAND	PLANETARY PERIODS IN WESTERN ASTROLOGY		No
Hindu astrology bases its predictions on periods of time ruled by a succession of planets. This gives a kind of overview for large periods of time that is not possible in conventional Western astrology. But there is a Western technique that does much of the same thing. These are Firdar or Alfridaries which come to us from the ancient Greeks via Persian and Arabic astrology. Alfridaries are a very simple technique that can be mastered by relative beginners. The basic technique is taught and applied to sample charts.

Part of a multi-speaker presentation, see Group Session ISR20-004 for details.						
94-1700	1	6	ROBERT HAND	THE ANCIENT GREEK THEORY OF ASPECTS		No
While modern astrologers view aspects as being divided into two broad categories, harmonious and disharmonious, ancient Greeks were much more concerned about which way the aspect was measured and from which planet. Aspects were referred to as 'regarding', 'hurling rays' and 'scrutinizing'. These notions have definite consequences for modern astrology.						
94-1660	1	0	ROBERT HAND	ASTROLOGY, MAGIC AND THE YOGA OF THE WEST		No
Ancient astrology and philosophy point very clearly to a kind of astrology that is not limited to character delineation with a bit of forecasting thrown in on the side. At it's best, it was an integral tool for enlightment. Illustrations drawn from Iamblichus, Plotinus and the Hermetic Tradition. All point to methods and techniques whereby one can directly encounter the archetypes that affect one's evolution.

94-1301-1304	4	18	ROBERT HAND	PLANETARY PERIODS IN WESTERN ASTROLOGY		No
Hindu astrology bases its predictions on periods of time ruled by a succession of planets, giving an overview for large periods that is not possible in conventional Western astrology. An ancient Westewrn technique, the Alfridaries, does much the same thing. This basic technique, easily mastered by beginners, is demonstrated.

Research methodologies in the human sciences are expanding definitions of acceptable data, including intuition, personal experience and storytelling. Such methodologies offer options to astrologers as we seek a valid means of evaluating and reestablishing our field as an accepted body of knowledge.

ISR23-105	1	17	LOUISE JENKINS	DISCOVER THE "MIND FREEING" PROCESS OF MERCURY RETROGRADE		No
Persons born when Mercury is retrograde, process information in their own unique style. They carry on this process in a Mercury Direct world. The complexities of this mental dance can be understood by those with Mercury Direct with "mind freeing" results. My goal is to aid in changing the perception of the Mercury retrograde process as a negative condition to one of an understanding of this higher-level mental function. Once the process and inner motivation/perception is understood, it can enhance one's grasp of other Mercury conditions to be found in natal, progressed, and in auxiliary charts.						
ISR23-023	1	25	LOUISE JENKINS	THE KALEIDOSCOPE MOVEMENT OF URANUS AND NEPTUNE IN THEIR 171-YEAR CYCLE		No
We explore the link between the 171-year Uranus/Neptune collective meaning, pertaining to social, political, and spiritual issues, and the application for the individual chart through the houses. Example charts show how individuals are challenged when the larger cycle connects with their age specific worldview.						
97103-0633	1	16	BARBARA JUNCEAU	BIRTH CHARTS: DOCUMENTS OF CONSCIOUSNESS		No
Consciousness is evolving. Your birth charts tell us where you came in this lifetime, the challenges as you evolve your own awareness and the next steps on your journey. You are the Path... your chart is your road map.						
97103-0436	1	0	BARBARA JUNCEAU	EMERGING NEW PARADIGM FOR RELATIONSHIPS: ARE WE READY?		No
Co-Dependence stares us in the face everywhere. Are we ready for relationships which require all participants to be rightly aligned with their souls? Discussion focuses on moving from "co-dependent" relationships to "spiritual" partnerships with special attention on the "transcendental" planets.						
94-270	1	2	BARBARA JUNCEAU	KARMIC AND SPIRITUAL LESSONS		No
Clients ask 'What's my purpose in this lifetime?' Learn some techniques for revealing spiritual and karmic lessons encoded in the chart.						
94-220	1	22	BARBARA JUNCEAU	METAPHYSICS: INTERCEPTIONS AND RETROGRADES		No
From a spiritual perspective, interceptions, retrogrades, and complex configurations suggest that the incarnating soul is committed to the spiritual path. Complex charts require both spiritual and personality-oriented counseling for the client to find balance.						
ISR23-044	1	2	ADRIANA POCH KADE	KEY PLANET IN YOUR DESTINY		No
My work is the result of a research study. The Key Planet plays a vital role in the life and destiny of each individual, and aids personality integration. Along the years we Astrologers have used different methods to find the ruler of the nativity or the strongest planet in the horoscope; methods like house or sign placements, angularity, rulerships, final dispositors, focal, apex or leader planets in configurations, Volguine's Method or the Hindu system called Shadbalas. In my work I use none of these methods to find the key predominant planet. The system is grounded in sound astrological principles and can be applied both to individual and Mundane charts of countries.						
ISR23-066	1	4	JOAN KELLOGG	TOUCHED WITH FIRE: MANIC-DEPRESSIVE ILLNESS AND THE CREATIVE TEMPERAMENT		No
Groundbreaking astrological research was conducted to introduce to the medical and psychotherapeutic community the efficacy and utility of astrology as it relates to the predictability of depressive, bipolar and manic disorder episodes. These relate to records of biographies of famous creative personages researched and reported by Kay Redfield Jamieson, recent winner of the American Psychological Association Genius Award for the 1979 publication of the book of this title.						
ISR23-047	1	2	JOAN KELLOGG	THE YOD: ITS ESOTERIC MEANING		No
This presentation is an introduction to the theory of identifying, understanding and interpreting the subtle yet critical Yodal signature of the soul's influence acting within the life of the individual. Karmic philosophy, psychological and astrological theories are interwoven into a dynamic framework for insight and application at every level from student to professional. Specific issues of resistance contained within the psychological shadow as solution to the yodal dilemma are highlighted for discussion. Discover the concept of "Yods in Progress".						
94-240	1	4	JOAN KELLOGG	THE YOD: ITS ESOTERIC MEANING		No
The Yod continually proves to be an accurate indicator of personality blockages to soul fulfillment. When understood, the Yod can be a release point of divine and spiritual energies. Joan interprets and defines the spiritual mission that is contained within the energies of the Yod. Bring your chart.

This presentation will enhance the first seminar presented at ISAR 2003 Anaheim where discussions for research were initiated. Introduction and overview of the subject will be presented in addition to new materials and information from clinical research and the recent astrological research to date. One significant component of the astrological research that has been conducted was based upon the extensive research work of Dr. Kay Jamison of Johns Hopkins University. The title of the presentation is taken from Dr. Jamison's McArthur Foundation "Genius Award" winning book which details her research into the lives of famous artists, musicians, composers, and poets.						
ISR25-T5S7	1	0	MAGGIE KERR	RELATIONSHIP COUNSELING IN ASTROLOGY		Yes
The "urge to merge" is an inherent process in our need to be loved and nurtured, and yet unhealthy co-dependent and addictive relationships is a feature of our times. So how do we assist ourselves and our clients on the road to becoming healthy individuals who are also capable of loving nurture? We will use some great tools from psychotherapy to explore unconscious compulsions which lead to games we play with others, in our attempts to get our needs met.						
ISR25-T2S4	1	0	MAGGIE KERR	TIME AFTER TIME - THE MOON AS THE SOULS' HISTORY (OR HER STORY!)		Yes
Our Moon's sign, house and aspects, tells the story of our Soul and the history, or "her" story of the journey through the many lives which have led us to now. This story is recorded in our unconscious cellular memory and stimulates us at the most instinctive level. This presentation explores the subtle yet incredibly obvious nature of this instinctive urge and the guidance it offers us in knowing the true path and purpose of our Soul in this lifetime.						
ISR23-037	1	0	MAGGIE KERR	MILLENNIUM HEALING - AN INVESTIGATION OF THE PISCAN MOON IN THE MILLENNIUM CHART		No

Join Maggie as she explores the relationship between these two themes in the Horoscope for the next 1,000 years, focusing on Pluto squaring the Moon in Pisces during 2003/4 and Uranus forming conjunction during 2007/8. ISR25-T3S3	1	1	JOE LANDWEHR	THE ART OF SUBJECTIVE RESEARCH		Yes
Astrological research is usually geared toward uncovering objective laws applicable to any birth chart. But the meaning of a birth chart depends not just on the symbolism but also the consciousness that is brought to it, and the life being lived through it. To understand a birth chart then, it must be explored within a living context. This workshop will outline the use of the cyclical history, and other techniques for empirically approaching this subjective level of interpretation.

After setting up the mythological background of the Goddess as well as clearing up astronomical uncertainties about Lilith as the Black Moon, we explore the spectrum of experiences of the mystical Goddess journey through the zodiac. We discuss how she unfolds her initial energy by touching planets and proceeding through the houses. Find out how Lilith works as a catalyst for sexual awakening, moral breaking love affairs, motherhood, justice, equality - and any experience of initiation related to birth, death and sexuality.						
ISR23-007	1	9	ANTONIA LANGSDORF	DISCOVER THE L-SPOT IN YOUR CHART: LILITH AND THE MYSTICAL APPROACH TO SEXUALITY		No
Myths, fairy tales and even epics like the King Arthur legend contain exciting information about the ancient matriarchal cult of the Goddess. By following the tracks of Lilith, you learn about the matriarchal mythology in which the Gods and Goddesses of Astrology have their source. In matriarchy, there was no such thing as marriage. Sexuality was free, joyful and deeply connected to the fertility cycles of nature. Thinking was cyclic instead of linear or polar. This is the set-up for a new understanding of the Goddess forces in your birth chart. It takes you way above any interpretation of a dark, demonic bad Lilith you may have heard before. This is the discovery: Once you unfold the powers of a strong Lilith to the best, you get an irresistible combination of joy, power, sexiness, magic and creativity!

ISR23-083	1	0	GLENNYS LAWTON	THE HIDDEN KEY TO THE PART OF FORTUNE		No
Of the many Arabian parts, it is the Part of Fortune that still is commonly included in horoscopes today. The Part of Fortune beckons us with a sense of promise and anticipation, generally without indication of the task we must undertake to unravel its mysteries. In this lecture we look at the significance of this point which informs us of the potential fortune that awaits us.						
ISR23-041	1	0	GLENNYS LAWTON	ATTACHMENT STYLES AND ADULT RELATIONSHIPS		No
Identity, as we know it, has two components: a sense of belonging and a sense of being separate. Basically there are three types of ways in which the process of bonding suggests the ways we may separate: 1. bond/separate, 2. can't bond/can't separate and 3. won't bond/can't separate. In this presentation we will explore the basic template of our attachment/separation style as suggested by our horoscope and how this informs our adult experiences of intimacy.						
97103-0634	1	0	GLENNYS LAWTON	LEAVING HOME		No
We examine the various ways in which we negotiate the process of leaving home. What is incomplete at this time re-emerges at other life transitions. The use of the astrological model can help illustrate that which is incomplete.

97103-0527	1	0	GLENNYS LAWTON	ATTACHMENT, LOSS AND GRIEF		No
Identity, as we know it, has two elements: a sense of belonging and a sense of being separate. We explore secure and insecure attachment styles and the impact these styles have on the developmental experiences of separation, loss and grief.						
97103-0334	1	0	GLENNYS LAWTON	THE CHANGING PATTERNS OF THE FAMILY LIFE CYCLE		No
The structure of the family is changing, dramatically altering the 'normal' family life cycle patterns. This often creates extreme stress to individuals within the family unit who now have outdated models for the transitional passages of their lives. Explore the impact of these changes, incorporating the astrological and psychological developmental stages.						
ISR25-T12S6	1	0	LEE LEHMAN, PH.D.	THE NODAL CYCLE IN HORARY CHARTS		Yes
The Nodes themselves and the Bendings (the points square the Nodes) represent crisis points in delineation. This lecture presents numerous examples of horaries where Significators fall on these points, and discusses just how important this consideration is in interpretation, and whether these points can deny perfection. Both the "story line" of these points and the extent of their liability will be discussed.						
ISR25-T4S3	1	0	LEE LEHMAN, PH.D.	HOW RIGOROUS WAS THE ASTROLOGICAL APPLICATION OF TEMPERAMENTS IN MEDICINE?		Yes
The idea of linking Hippocrates' temperaments into an astrological system was developed by at least the Persian period. However, the greatest interpreter of the Galenic corpus in the Middle Ages was Avicenna, who was not interested in astrology. Given this fact, to what extent did a literature develop which used the temperaments astrologically? This lecture will present some example applications of this system, and discuss their modern relevance.						
ISR25-PRC2	4	0	LEE LEHMAN, PH.D.	CHARTS OF PASSION		Yes
Love, hate, war, peace, lust, competition, negotiation, marriage, divorce, maybe even a little crime: Lee will cover them all, with some theory and a lot of chart examples. We will examine nativities, horaries, events and electionals.						
ISR23-092	1	3	LEE LEHMAN, PH. D.	URANUS, AQUARIUS AND ALL THAT		No
How was Uranus associated with Aquarius? We go back to the 19th Century and examine how the astrologers who got the first crack at Uranus chose Aquarius for its Rulership, and what the implications of this method possess for its transit of any other sign, and for rulerships in general.						
ISR23-053	1	6	LEE LEHMAN, PH. D.	RENDERING		Yes
Rendering is the English word for return of virtue, the opposite of donation of virtue. Specifically, this refers to situations in which a planet combust or retrograde is not in as bad condition as one would expect from its accidental debility. The concept is also the flip side of reception.						
96-3909	1	8	LEE LEHMAN, PH.D.	COMPARING DIFFERENT SYSTEMS OF RULERSHIP		No
Different astrologers used different sources for their ideas and presentations. The understanding of these intellectual lineages can be important in grasping how different schools of thought developed. We use rulership attributions to trace lineages from Ptolemy to the 17th Century.

This lecture explores the considerations around asking horary questions in general, and which software is appropriate for a horary perspective. An astro-clock on line? A regular program off-line? What are the minimum horary components you need in a horary software package.						
96-1208	1	0	LEE LEHMAN, PH.D.	THE NODAL CYCLE: FROM PTOLEMY TO RUDHYAR		No
Rudhyar and Ruperti discussed the Moon's cycle of latitude, which requires no calculation but a visual inspection of the chart, and yet yields fascinating information about how the individual interacts with ideas and the world. This analysis clarifies Ptolemy's and other ancient authors' interpretation of the nodal cycle, and explains why the squares to the Nodes are so important.

97103-4311	1	0	RICK LEVINE	RECLAIMING THE SOUL OF SCIENCE		No
Astrology, like other rational sciences, has separated itself from its soulful origins. We'll explore the ancient, Hermetic traditions, the Florentine renaissance, Marsilio Ficino, Johannes Kepler, William Blake and the Newtonian scientific split from the soul. We will then use the magic of the Golden Mean to help us understand the current need to feminize science and the re-integration of the soul into our everyday lives.						
97103-0341	1	0	RICK LEVINE	THE SOUL OF A BIRTH CHART		No
This conference theme is that soul is between science and spirit. We can think of 3-dimensional events as science. The upward ascending, esoteric, angelic realm of the heavens is spiritual. Physically, however, we are bound to Newton's Gravitational Structures and stressful 90-degree aspects that bring fateful events into our lives. How do we look for the phantom photon magic in the natal chart to bring it all together?

We trust the accuracy and precision of astrology, yet paradoxically need its randomness to allow freedom. Chaos Theory teaches much about basic astrological mechanisms which we can use creatively. This class examines the qualitative differences between each of the dignities and how they were used by Hellenistic astrologers to assess a planet's overall condition in a chart.

ISR25-T8S8	1	0	SUSAN MILLER	SUN SIGNS AS A GATE OPENER FOR DEEPER STUDIES IN ASTROLOGY		Yes
Advanced astrologers who dismiss Sun Sign astrology may not have explored its possibilities. The Sun holds a unique position in our galaxy as a life-giver and center of our solar system. In reality, each planet in its current Zodiac sign position has a chart of its own, similar to a Sun Sign chart if you place that planet on the Ascendant and let the other planets play out in their current positions. Also, if the conjunction is the most powerful of all aspects, then Sun Sign astrology places greater emphasis on the major cycles of the outer planets - we will discuss why, with examples, including coming eclipse cycles. You will never see your chart in the same way again.						
ISR25-T8S2	1	0	SUSAN MILLER	ASTROLOGICAL SUN SIGN FORECASTING FOR MASS MEDIA		Yes
Beginning astrologers will be fascinated to find out what information astrologers use to make their published predictions for the mass media. Advanced astrologers will see why there is value in doing not only a natal chart but also a Sun Sign chart for every client they consult. Predictions for each sign for the coming 12 months are included in this talk.

We will also demonstrate extraordinary events through transits of (Marilyn Monroe, Sharon Tate, John Kennedy and so on) chosen among the international VIPs. I would also like to comment on Lilith's role in Financial Astrology in this presentation.

Such behaviors manifest as obsessive compulsions and are often related to difficulties in the natal horoscope reflected in the placements of Saturn and/or Pluto. He will also offer some advice as to how to help such clients to deal with these tendencies.

ISR25-T9S7	1	0	JONI PATRY	INTRODUCTION TO GOCHARA (TRANSITS)		Yes
Gochara or transits are one of the most important predictive tools used in astrology both East and West. Many variables must be assessed to make accurate predictions with transits. To be discussed are the houses and their rulers activated by transits. The aspects a transiting planet may form to the natal planets and their spatial relationships, dispositors, the signs/houses transiting planets prefer, stations and retrogrades of transiting planets, and the transiting Moon as the trigger in prediction. Jupiter and Saturn will give the main events of the year, and Rahu/Ketu and Eclipses reveal where changes will occur. An extensive handout with a step-by-step method of using transits with all these variables and more will be provided.						
ISR25-T9S2	1	0	JONI PATRY	THE BHAVAS (HOUSES) FROM HOUSE TO HOUSE		Yes
The analysis of all the meanings and qualities of the houses and how they are applied to each other to see every area of life and everyone in a chart will be discussed. This is called Bhavat Bhavam (meaning from house to house) of the derivative house system in western astrology. It is our inner connection to all, and how we experience others. This will give you the quality of an astute astrologer working on a multidimensional level, making specific predictions instead of making general vague predictions. You turn the chart according to the matter specified or the person within the individual's life. Then the dashes and especially the transits must be applied pertaining to the person within the chart you are viewing. You will never look at a chart the same with this technique.						
94-490	1	1	MARC PENFIELD	SOLAR RETURNS IN YOUR FACE!		No
Using precession, how one can remove ambiguity and doubt about events that occur in a specific year.						
94-440	1	6	MARC PENFIELD	RECTIFICATION: NADI - NOT NAUGHTY		No
Using as Hindu system of rectifying birth times, Mark shows you how to zero in on approximate birthtimes. The system is relatively simple, but one must learn to think in Sidereal terms. A MUST for all practitioners who never accept data without questioning its veracity - a MUST for all prognosticators!

ISR25-PSC2	4	0	GLENN PERRY, PH.D.	ASTROLOGY, KARMA & REINCARNATION: A FRESH PERSPECTIVE		Yes
<p>In this seminar, we will explore the evidence for reincarnation and its relevance to astrological practice. The doctrine of reincarnation has important implications for how one approaches interpretation. If a client's trials and travails are orchestrated by a transcendent intelligence that works through astrology, then experience is neither random nor determined by an impersonal, clockwork mechanism. Rather, experience is purposeful and wedded to a growth principle inherent in the cosmos. Difficult aspects may constitute specific lesson assignments that require the development of compassion and insight in those areas of life symbolized by the aspect. How can we interpret such configurations in a manner that supports (and accelerates) the client's evolution as a spiritual being?</p>						
ISR25-T2S3	1	0	GLENN PERRY, PH.D.	WALKING THE RAZOR'S EDGE: SUN-NEPTUNE ASPECTS		Yes
<p>When the Sun and Neptune are in hard aspect, paradoxes abound. The Sun craves attention and triumph of the will, but Neptune requires humility, sacrifice, and surrender to a higher power. An unresolved Sun-Neptune conflict can lead to unconscious guilt for merely being an individual. But compensatory identification with the divine can result in dangerous self-inflation. Is there a middle path between self-inflation and self-denial? Yes, but it's narrow as a razor's edge.</p>						
ISR23-065	1	0	GLENN PERRY, PH. D.	THE ZODIAC AND THE GROWTH PROCESS: TWELVE STEPS TO ENLIGHTENMENT		No
<p>We explore how the zodiac not only symbolizes the structure and dynamics of the human psyche, but also models the evolutionary unfoldment of consciousness. Learn why signs can be understood as archetypal needs, developmental stages, and distinct time-space perspectives. And discover how each sign's unique behavioral attributes derive from its developmental task and orientation in time and space.</p>						
ISR20-057	1	0	GLENN PERRY, PH. D.	THE MOON AS AUTOMATIC LISTENING RESPONSE		No
<p>Of central importance to the counselor is the ability to listen. As astrologers, we must contain the client's feelings and convey a warm acceptance and understanding. The Moon's sign, house, and aspects symbolize our automatic listening response and the likely style and substance of our emotional rapport.</p>						
ISR20-068	1	2	GLENN PERRY, PH. D.	FROM THORNS TO ROSES: HELPING CLIENTS WITH DIFFICULT ASPECTS		No
<p>Certain aspects in a horoscope symbolize areas of wounding and suffering. Very often the most difficult part of doing a "reading" is knowing what to say to clients when they confess their pain. How can we be of help? What can we say that will clarify the nature of the problem, reveal its deeper meaning, and provide them with hope?</p>						
ISR20-018	1	4	GLENN PERRY, PH. D.	FROM ROYALTY TO REVOLUTION: THE MARRIAGE OF LEO AND AQUARIUS		No
<p>As ruler of Leo, the Sun symbolizes the self-esteem and prideful attachment to a particular identity. As ruler of Aquarius, Uranus signifies the need for prespective and liberation from fixed definitions of self. Hard aspects between Sun and Uranus indicate a potential revolt against the tyranny of the ego. The result <i>could be</i> conscious evolution, recognition of impermanence and self-emancipation.</p>						
ISR20-004	2	0	GLENN PERRY, PH. D.	THE IMPORTANCE OF ETHICS IN PRIVATE PRACTICE		No
<p>Part of a multi-speaker presentation, see Group Session ISR20-004 for details.</p>						
97103-0628	1	0	GLENN PERRY, PH. D.	NEPTUNE AND THE POWER OF THE DREAM		No
<p>Neptune symbolizes the collective human striving to return to our spiritual source. On a personal level, however, Neptune's placement signifies our dreams and ideals. It is <i>our</i> vision of a higher state. Whatever our dreams may be, it is a metaphor for unity and a vehicle for transcendence.</p>						
97103-6401	1	0	GLENN PERRY, PH. D.	SCIENCE AND THE SOUL: FROM MACROCOSM TO MICROCOSM		No
<p>Group Session also includes the following two presentations: Buz Myers: Opening to Your Higher Self. Marcia Starck: Astrology's Use in the Healing Professions: Weaving Science and Spirit.</p>						
97103-4211	1	1	GLENN PERRY, PH. D.	ASTROLOGY, SYNCHRONICITY AND SOUL		No
<p>This talk focuses on Jung's concept of synchronicity and its relevance to astrology and counseling. Archetypes are primordial structures of the human psyche (soul), as well as structures of the Universal Psyche. As such, an archetype will manifest synchronistically in both inner and outer conditions.</p>						
96-2607/2707	2	0	GLENN PERRY, PH. D.	SATURN TRANSITS: FACING REALITY OR SUFFERING THE CONSEQUENCES PARTS, 1 & 2		No
<p>This workshop involves a search for common themes and meanings of Saturn transits. Part lecture and part experiential, we explore how this grim reaper is especially grim when we are resistant to the message his visits entail. Properly integrated, Saturn enables us to face reality and reap the benefits.</p>						
96-1107/1207	2	0	GLENN PERRY, PH. D.	NEPTUNE TRANSITS: DECONSTRUCTION OF THE SOUL'S ARMOR, PARTS 1 & 2		No
<p>This workshop involves a search for common themes and meanings of Neptune transits. Part lecture and part experiential, we explore how Neptunian visitations soften, refine, and elevate the character. In the process, however, we had better be prepared to give up a few defenses, for transcendence has its price.</p>						
96-17	1	4	GLENN PERRY, PH. D.	HOW DO WE KNOW WHAT WE THINK WE KNOW? FROM PARADIGM TO METHOD IN ASTROLOGICAL RESEARCH		No
<p>ISAR 1996 Conference Begins, Keynote Address.</p>						
ISR25-T10S4	1	0	KELLY LEE PHIPPS	PLANETARY CYCLES OF THE PISCAN AGE		Yes
<p>We are living during the momentous interface period between the Age of Pisces and Aquarius. The astronomical shift of the Aries Ingress doesn't occur until 2376! However, ever since Uranus was discovered in 1781, we have felt the growing tide of Aquarius. How can our world cultivate spiritual unity through devotion to craft and aim it all into the new emerging paradigm of creative individuality? Through the cycles of the outer planets and the Great Conjunctions of Jupiter and Saturn we will explore the global shift in consciousness!</p>						
96-1210	1	12	DOUGLAS PIERCE	TRANSLATING ASTROLOGICAL INSIGHT INTO RESEARCH DESIGN		No
<p>To test hypotheses that arise from astrological insight, astrological principles must guide research design. Grouping of cases must be based upon chart similarities, contrary to usual practice, but conforming with standard principles of research design. Advantages of doing so include elimination of the need to determine expected frequencies of celestial phenomena. Co-Taught with Maggie McPherson.</p>						
96-1302	1	5	DOUGLAS PIERCE	MERCURY, ASTROLOGICAL SOFTWARE FOR THE MACINTOSH		No
<p>In addition to the most comprehensive set of astrological calculation and display features available for the Macintosh, Mercury introduces a new kind of document: the 'astrological biography', which can include chart data and notes for one or more natsals as well as any desired predictive or synastry charts, plus timings and notes for any selected transit, progression, or arc events. Indispensable tools for capturing intuitions on the fly.</p>

97103-0416	1	0	BARBARA SCHERMER	PSYCHE'S TASKS: THE INITIATION OF LOVE		No
By re-examination of the psyche-eros story, we learn that love is an initiation, one that requires us to accomplish Psyche's tasks if we are ever to be whole, sensual and loving. We use the cardinal cross as a guide to her four tasks; sorting the seeds (earth/discrimination), gathering the fleece (fire/passion), collecting the waters (water/healing), and opening Beauty's box (air/hope).

ISR25-T4S9	1	0	ROBERT SCHMIDT	THE HELLENISTIC DOCTRINE OF PLANETARY COMBINATION		Yes
Modern aspect doctrine is a conflation of several different modes of planetary combinations pioneered during the Hellenistic era. Each of these will be explicated in detail, and the general principles for their respective delineations will be explained. The combinations discussed will include testimonies and co-presences, conjunctions and adherences, superiority of position, aspects proper and the hurling of rays, spear bearing, corruption, and the void-of-course Moon.						
ISR25-T4S5	1	0	ROBERT SCHMIDT	THE HELLENISTIC DOCTRINE OF THE TOPICAL PLACES (A.K.A. "HOUSES")		Yes
The significations of the houses in Hellenistic astrology resulted from a fusion of two different systems: an eight-topic system that is largely devoted to the native's family members, and a twelve-topic system that concerns events in the native's life. The rationale behind each of these two systems will be explained. From this the basic meanings of the houses can be readily derived, as well as the principles underlying the delineation of planets in houses and the rulers of these houses.						
94-1690	1	0	ROBERT SCHMIDT	ASTROLOGY AND EUROPEAN CHRONOLOGY		No
Some of the extraordinary patterns recently discovered in European chronology by Russian mathematicians. Are they evidence of some new astrological principle? Or did the medieval astrologers 'normalize' history with planetary conjunctions?

94-1610	1	8	ROBERT SCHMIDT	THE ASTROLOGICAL TIME SENSE OF THE GREEKS		Yes
The original Greek conception of time was inherently astrological, modeled on the phenomenon of heliacal rising and setting. This conceptualization provided the ultimate justification for their predictive techniques - especially primary directions.						
ISR25-T10S9	1	0	DR. SCHUBERT-WELLER	MUNDANE ASTROLOGY, SYMBOLIC ASTROLOGY AND RELIGION		Yes
Religious impulses and the respective Zeitgeist phenomena can be reflected by mundane constellations and long time planetary cycles. ISR20-026	1	2	BRUCE SCOFIELD	URANIAN ASTROLOGY FOR THE COMPLETE IDIOT		No
The astrological system that was developed in Germany early this century has much to offer technically minded astrologers, particularly those who do rectifications and electional charts. But it can also offer much to any student of astrology who is willing to open their mind to a more crystalline and geometric view of how planets affect us. Topics covered include planetary pictures, common axes, and midpoints.

In and at the edge of our solar system, lies a combo platter of new, highly significant objects. Whether Centaurs or objects near Pluto, the solar system presents astrologers with hundreds of new discoveries. Should we care? Sometimes overlooked by the practicing astrologer, Solar Arc Directions are a very important forecasting technique. Used along with Secondary Progressions, a Solar Arc hit will often confirm other forecasting data, but most likely will point toward a developing experience or event that other progressions fail to reveal. Sample charts will be used to demonstrate the power and impact of Solar Arc Directions on a natal chart.

Maureen has fine-tuned her astrological knowledge through decades of consultations, and she relies on the standard methods that most modern professional astrologers use. David gives his analysis based on a complex and sophisticated interpretation of harmonic patterns. ISR20-022	1	2	GEORGIA STATHIS	PLANNING AND MARKETING YOUR PRACTICE: NUTS AND BOLTS		No
Every astrologer starts somewhere when evolving from an avocation towards a viable career. 97103-0614	1	5	GEORGIA STATHIS	ANALYZING THE CHART		Yes
Georgia shares myths, stories, fables and examples in story form that help clients understand their transitions more effectively. By noting certain transits through the horoscope as well as certain mythological signatures, you, as the astrologer, can make your point more clearly by telling the client stories about their natal placements and transits. A picture is worth a thousand words. That holds true for clients who have a very difficult time understanding our "astro-babble" while in session. When the stories are given, approximate dates can be included as to when they might be most particularly alive. This method enriches the time for both your client and you, the astrologer. Georgia shares her imagination and stories for Neptune, Pluto and more.

ISR25-T3S1	1	3	BILL STREETT	SCIENCE & ASTROLOGY: A VIEW FROM THE BEGINNING OF THE 21ST CENTURY		Yes
Everyone knows that science and astrology are areas of study that support completely contrasting worldviews and conclusions about the nature of reality. This statement may have been true one hundred years ago, however, since the twentieth century, many scientific developments are now sympathetic to the foundational assumptions of astrology. Through exploring chaos science, quantum physics, super string theory, holography, and the theory of intelligent design, we'll see how advances in contemporary science support a plausible astrology.

ISR23-101	1	0	RICHARD TARNAS, PH. D.	WHY THE MODERN MIND REJECTED ASTROLOGY, AND WHAT ASTROLOGERS NEED TO DO TODAY		No
Astrologers know their perspective provides an unequaled source of illumination and deeper understanding for virtually every area of human experience: personal psychology, cultural history, contemporary events, philosophy, cosmology, religion, and the arts. Yet we live in a time when that same astrology is widely regarded by the established intellectual authorities as the most lowly and absurd of superstitions. We need to understand how this truly archetypal situation emerged, and what concrete steps can be taken to move astrology into the center of culture-where it deserves to be and perhaps someday will be.						
ISR23-070	1	0	RICHARD TARNAS, PH. D.	MUSIC, HISTORY, AND PLANETARY ARCHETYPES		No
Astrology provides profound insight into the patterns of our cultural history, but such insight depends on a capacity for rich archetypal perception, something that involves not only thinking but also the emotions, the imagination, the body, the whole being. Because music and the arts engage all these dimensions, this lecture will use representative works of music as windows into the archetypal character of different eras and the planetary cycles they express.						
ISR20-097	1	0	RICHARD TARNAS, PH. D.	THE ETHICAL DIMENSION OF ASTROLOGICAL PREDICTION		No
This lecture addresses the liberating potential, constraints, and pitfalls that accompany astrological knowledge; the special responsibility borne by astrologers, especially those who counsel others; the limits of astrological prediction and the indeterminacy of archetypal causation; fate and free will; astrology's shadow side as well as potential for supplanting moral development.						
ISR20-059	1	0	RICHARD TARNAS, PH. D.	CORRELATING PLANETARY CYCLES AND CULTURAL TRENDS		No
The great alignments of the five outer planets have coincided with the principal patterns and archetypal dynamics of twentieth-century cultural life. No method of historical analysis brings greater illumination to the character or timing of cultural phenomena than does an astrology informed by a deep grasp of planetary archetypal meaning.						
ISR20-038	1	0	RICHARD TARNAS, PH. D.	TRANSPERSONAL DIMENSIONS OF ASTROLOGICAL COUNSELING		No
Many who seek astrological insight want more than superficial predictions about their coming year's financial and sexual fortunes. Our depth of psychospiritual experience and self-knowledge will greatly affect our usefulness to those we counsel. Important recent advances have given us a more profound understanding of both the human psyche and planetary archetypes.						
ISR23-088	1	6	CAROL TEBBS	LET THE GOOD TIMES ROLL: ELECT THE BEST EVENT TIME		No
Planning ahead brings optimal results when astrological principles are applied to select the best event time within practical limitations. Weddings, surgery, major purchases, signing contracts and business deals and even gambling are some important elective life events for consideration.

ISR20-035	1	13	CAROL TEBBS	ASPECT NETWORKS AND GRAND PATTERNS		No
Aspect networks involving three or more planets define the major areas essential in destiny fulfillment. Activation of these close aspect networks demark the timing for the unfolding pattern. The greater numbers of planets and angles in the aspect network, the more compelling the destiny signified.						
97103-0425	1	0	CAROL TEBBS	DEATH: CRISIS FOR THE LIVING		No
Dying is many things to many people depending on their faith, but astrologers face five major pitfalls when looking into this area with a client. Sample charts of people who faced this crisis and lived as well as some who died, reveal that a difficult chart can often bring cause for hope. On the other hand, charts of survivors are often more stressful than the deceased.						
97103-3311	1	0	CAROL TEBBS	WHERE DID THE STATUS QUO GO?: TRANSITS OF URANUS IN LIFE DEFINING MOMENTS		No
After introducing the cycle of Uranus and the periods of life its movement relates to, an in depth discussion covers: What "awakenings" can I anticipate? Where are the astrological "mines" that a Uranus transit will reveal? Where did the status quo go? Participants begin to locate key Uranus transits to their own charts and catalogue responses in an organized research format.						
96-3807/3907	2	10	CAROL TEBBS	TRANSITS OF URANUS IN LIFE-DEFINING MOMENTS, PART 1 & 2		No
Part 1: After background in the cycle of Uranus and the periods of life it demarks, a discussion covers topics such as 'What awakenings can I anticipate?', 'Where are the astrological 'mines' that a Uranus transit will reveal?', and 'Where did the status quo go?' Participants locate key Uranus transits to their charts and catalogue responses in organized research format. Part 2: Through 'on-the-spot' data gathering, participants locate key Uranus transits to their own or other well-known charts. In small groups, we catalogue the responses according to planet or angle transited, aspect(s) formed, signs involved, and other relevant criteria. The collective information is used to update and expand our literature and understanding of this powerful stimulus for change. Who wanted the status quo, anyway?						
96-2509	1	6	CAROL TEBBS	STUDY OF GIFTED PEOPLE		No
What is that special intellectual gift that sets someone in the top 2% of the population? What astrological signature is present in the birth chart? How can we use the information constructively? All these questions and more are answered in the presentation of a long-term study of gifted people, most of whom have shared pertinent biographical information about how they have experienced their giftedness.						
94-1290	1	6	CAROL TEBBS	SYNASTRY: THE HEART OF THE MATTER		No
Chart synastry of family members can reveal important issues and the roles each will play in the unfolding pattern between parents, children and siblings.

ISR23-028	1	10	ELIZABETH TEISSIER, PH.D.	MUNDANE EFFECTS OF URANUS: AIR CRASHES, EARTHQUAKES, INSURRECTIONS, & SIGNIFICANT STOCK MARKET MOVEMENTS		No
During the last twenty years, one of my major subjects of research has been mundane astrology. I observed significant correlations between some particular planetary cycles like Neptune/Pluto and floods and pollution of all kinds - chemical, nuclear, food poisoning (cf. my lecture at UAC in July). Concerning Uranus, I have made dozens of exact (and published) forecast confirming the following hypothesis: the dissonances of Uranus with the Sun, Mercury and Mars are always present in the mentioned major events.						
ISR25-T2S6	1	10	GISELLE TERRY, PH.D.	THE PROGRESSED MOON AROUND THE ZODIAC		Yes
The progressed moon goes around the chart approximately three times in a normal life span. The first cycle coincides with developmental theories in psychology. Astrology adds more meaning to the phases of the cycle in accordance with the sign and house placement of the progressed moon and its aspect patterns. In the second and third cycles around the chart the moon, holder of memory, revisits the same terrain but brings with it an opportunity to revise and heal the experiences once encountered. In its resonance with its own past, every 27-1/3 years, something new can be created in accordance with the sign, house placement and aspects formed by the current position of the moon. This is astrology's developmental theory of life.

The reception of Uranus and Neptune affects people on a personal level challenging them to respond in an increasingly stronger, more creative and flexible way.
